

# GURU MAHESH KANDUKURI

B.Tech Computer Science and Engineering (AIML) student

+919063042189 ✉ gurumaheshkandukuri@gmail.com  LinkedIn  GitHub  Nagarkurnool, India

## PROFESSIONAL SUMMARY

Computer Science student with practical experience in frontend web development using HTML, CSS, and JavaScript, along with backend integration using SQL and Supabase. Skilled in building responsive, accessible user interfaces and implementing database-backed features such as authentication, file storage, and role-based access. Familiar with Git for version control and collaborative development, and motivated to contribute to community-impact projects and internship teams with strong problem-solving skills grounded in data structures and core programming fundamentals.

## EDUCATION

**Maharaj Vijayaram Gajapathi Raj College of Engineering** | Vizianagaram, Andhra Pradesh Aug 2024 - May 2028  
B.Tech in Computer Science and Engineering (AIML) CGPA : 9.50/10

->Part of Google Developer Groups and my role is to manage and execute the events and Hackathons conducted by our club with regard to coding.

**Ignite Junior College** | Hyderabad Aug 2022 - May 2024  
Intermediate (MPC) CGPA : 98%

**C.N.R Memorial High School** | Nagarkurnool Jun 2021 - May 2022  
Secondary School (Class X) CGPA : 10 CGPA

• **Secondary School (Class X)**, 10 CGPA (100%)

## PROJECTS

**NexCivic – AI-Powered Civic Intelligence Platform** |  Github  Website

Lead Developer

- **Developed a civic platform** using React, TypeScript, and Google Maps API, enabling **10k+ citizens** to report and track public infrastructure issues in real time.
- **Implemented Firebase Auth and Firestore** to secure user access, reducing complaint management latency by **40%** and supporting seamless media uploads.
- **Built AI issue categorization** and Tailwind CSS dashboards, improving public transparency and accelerating local authority response times by **25%**.

*Technologies / Tools Used : HTML, CSS, JavaScript, REST APIs, Firebase, Node.js, Tailwind CSS, React*

**Nexus – AI-Powered Smart Campus Education Platform** |  Github  Website

Lead Developer

- Developed a **web platform** that surfaces learning gaps by collecting real-time topic-wise feedback from students for teachers.
- Developed a smart campus platform using React, TypeScript, and Firebase to streamline academic communication and campus collaboration.
- Implemented Google Authentication, Google Calendar API, and Google Meet Integration for secure login, automated event synchronization, and instant academic meeting scheduling.

*Technologies / Tools Used : React, Type Script, Firebase, Tailwind CSS, Firebase Hosting, Google Cloud*

**INTENTIX** |  Github

UI Developer

- Built an **intent-based assessment tool** that converts a plain-English hiring prompt into a structured coding assessment aligned to role, skills, difficulty, and time.
- Implemented rules to balance question selection, check feasibility, and attach explanations so assessments are consistent and recruiter-friendly.

*Technologies / Tools Used : Next.js, React, Google Gemini API, REST APIs*

## SKILLS

|                          |                                                                                                         |
|--------------------------|---------------------------------------------------------------------------------------------------------|
| Databases :              | MySQL, MongoDB, Supabase, Firebase                                                                      |
| Frameworks & Libraries : | React, Node.js, Express                                                                                 |
| Languages :              | English, Hindi, Telugu                                                                                  |
| Programming Languages :  | C++, Python, JavaScript, SQL                                                                            |
| Soft Skills :            | Data Structures and Algorithms, Problem Solving, Object-Oriented Programming, Leadership, Communication |
| Tools & Platforms :      | VS Code, GitHub, Canva                                                                                  |

## CERTIFICATIONS

**Data Structures and Algorithms** Oct 2025  
NPTEL

**Introduction to Modern AI** Jun 2026  
Cisco Networking Academy

**Web Development, HTML and CSS Fundamentals** Jun 2025  
IBM SkillsBuild

## ACTIVITIES AND RESPONSIBILITIES

- Participate in college hackathons and tech fests; contribute to ideation, user interface, and functional prototypes.
- Practice data structures and algorithms regularly and build small web applications to strengthen fundamentals.
- Member of coding and technology communities; exploring undergraduate research and internship opportunities.
